VIGNAN SCHOOLS

Where FUTURE Evolves

VIGNAN'S Bo Tree SCHOOL | Nizampet

Affiliated to CBSE, New Delhi - 3630096

Greatness Inspired
Our Chairman

Dr.L. Raithaiah, the chairman of Vignan group institutions is not just a person to be content with the ritualistic teaching of a student for a mere pass or class.He scrutinised the system of the education in the erstwhile Andhra Pradesh and discovered several loop holes in it. He dedicated a lot of time in finding ways and means to plug them carefully and improve the whole system with his innovative ideas. The great doctor of education met with a scintillating success at the end. He changed very face of education in the state and made it an "ink revolution" in the twin states today. This has made him a role model for the entire educationalists fraternity around him and they have been impressed of his innovative tactics that they have adapted this new system which has been successful in getting many students admitted into the IIT's, NIT's, BITS Pilani, Medical Colleges and etc. across the country.

Dr. L. Rathaiah,
Founder & Chairman
Vignan Group of Educational Institutions

Greatness Reloaded
Our Vice-Chairperson

The young and dynamic vice chairperson of the Vignan group of institutions, Smt. Rani Rudramma Devi has been ceaselessly working to full fill the group's vision of providing the schools with proficient and motivated teachers, world class infrastructure with all the state of art facilities and she Guides, motivates & inspires the team of Vignan to create wonders in the field of education. Her ultimate aim is to create the children as the successful leaders of the future generations. She has been recognized for her remarkable achievements by being listed in India Today's prestigious *'The She List'* of the top100 women achievers of India.

Smt. L. Rani Rudrama Devi
Vice-Chairperson
Vignan Group of Educational Institutions

13 ACRE BIGGEST CAMPUS FOR ACADEMICS & SPORTS

WHAT SETS US APART!

HEALTHY SPACES

Established in the year 1995, in the heart of the city, our Bo-Tree School is situated on a 13-acre campus in the centre of a serene landscape. Our futuristic classrooms allow ample sunlight and air to stream through all sides, and our state-of-the-art infrastructure keeps us as one of the biggest and most reputed schools at the international level.

INNOVATIVE PEDAGOGICAL PRACTICES

We believe in adopting innovative pedagogical practices that go beyond the traditional teaching methods. Our teachers are trained to use creative and ultra modern approaches to enhance the learning experience of our students. We employ AI, project-based learning, blended learning, and personalized learning to help students develop critical thinking, problem-solving, and collaboration skills. Our goal is to equip our students with the skills and knowledge needed to succeed in the modern world.

OUR PACE BOOK, *AN INNOVATION*

As is the case with no other institution, our Vignan has introduced a Planner for Academic, Curricular and Extra-curricular activities in its schools. The Vignan's Pace Book, as it is called, is designed with the sole intention of keeping the parents constantly updated about the learning of their children at school. It contains an hourly plan for each subject with respective teaching aids, activities and events designed to improve the physical, social, and emotional quotients of the students. The planner includes exam schedules, festivals and holidays extending through the whole year.

VERSATILE FACULTY

Vignan, with its excellent reputation for research and training, works approximately 580 hours a year on the professional development of its teaching staff. We also provide our faculty with opportunities for teacher training at the top institutions in India like the Indian Institute of Science (IISc) Bangalore and help them obtain different certifications at the national level. Our teachers act as second parents for our students, being always accessible and attentive to their emotional needs. They take various measures to involve every child in the learning process and help him realise their full potential.

OLYMPIADS

We conduct special classes for our students with relevant material to augment their logical reasoning, analytical thinking, problem-solving, and aptitude skills. These classes help them excel in different international Olympiads such as NTSE, NSO, etc., which in turn enable them to face national-level competitions with ease after the 10th grade.

IIT JEE/NEET PRE-FOUNDATION

Our pre-foundation course is designed to motivate students to go beyond the usual school curriculum and strengthen their basic concepts in science and mathematics. We aim to develop students' IQ, logical and analytical thinking, as well as skills of time management. Evening online classes with recording facilities and doubt-clarifying sessions will help build a strong foundation and clear concepts in them. We collaborate with TCSion to help students prepare for future exams by providing them with online exam writing experience.

BACK TO BASICS

Students facing difficulties in learning are identified after every assessment, and additional classes are conducted for them for compensating their shortcomings. By paying close and personal attention and laying a proper academic foundation our teachers help them improve their performance and fall in the right track in no time.

Remedial Class

- (ISP) Individual Support to the students for class III to VIII
- PDP (Personality Development Programme) for class I & II.

COORDINATORS

An academic coordinator is one who has a thorough knowledge of the subject and also a vast experience in guiding teachers. He is also the head of his department who monitors the teachers' class room work and supervises the performance of the students in the examinations. We have an excellent batch of coordinators who are all proficient in their respective subjects and work day and night for the constant up-keep of the school on the academic front.

RECORD BREAKING PERFORMANCE IN X CLASS

World One School consistently secure a place among the top 10 schools nationwide annually. With a 100% pass rate, our students achieve an impressive average mark of 86% every year. Remarkably, one out of every three scores exceeds 95%, highlighting our commitment to academic excellence. Furthermore, a significant majority of our students achieve perfect scores in both mathematics and science subjects, further emphasizing the high standards of education and dedication to scholastic achievement at our institution.

HAPPY CLASSES

The aim of education is not just to impart knowledge and skills, but also to instill values and attitudes that enable students to contribute to society. At Vignan, we believe that a happy and positive learning environment is essential for children's holistic development. Our curriculum includes practices like meditation, fables, and anecdotes, which enhance children's inner mechanisms and promote positive behavior.

ENTREPRENEURSHIP CLASSES

To raise our country from a job-seeking to a job-providing level, it is important to instill an enterprising nature in our children. With this goal in mind, our classes aim to develop creativity, confidence, risk-taking ability, and alertness to opportunities with the help of multiple stories, case studies, and examples. Our hope is that these skills will enable our students to become successful entrepreneurs and job creators in future.

ATAL lab

MENTORSHIP

At Vignan, teachers play a vital role as second parents to every child. Through the MENTORSHIP program, teachers assess each child in academic, physical, emotional, and social aspects, providing counseling to foster a well-rounded development. This approach cultivates a robust relationship between teachers and students, creating a supportive learning environment. This type of connection helps to build belongingness while creating a more inclusive pathway to opportunity and success.

STUDENT CONCLAVE

The Student Conclave at Vignan Schools acts as a forum to bring together the student leaders. This initiative strives to be a unique and effective platform where one can learn as well as contribute to school development.

In Grade 9, students take charge of various committees including Discipline, Sports, Literature, Events, Art and Culture, and Magazine. They actively plan and organize events ranging from smaller assemblies to grand occasions like the Annual Day. This hands-on involvement empowers students, boosting their confidence and fostering the development of valuable leadership skills.

MOU

At Vignan we believe, values are powerful determinants of human accomplishment, progress, fulfillment, and evolution. Education should not just prepare us to acquire skills and earn livelihoods but also should sharpen our inner qualities and virtues to make us a better human being.

Thus, our school has collaborated with leading organizations like Brahamkumari's, Heartfulness, Ramakrishna Mission and Art of Living., who conduct frequent sessions for students' staff, and parents addressing the importance of values in life, meditation, stress management, adolescent issues, etc. The students receive certificates at the end of these sessions.

NATIONAL CADET CORPS (NCC)

At Vignan School, we believe in fostering leadership skills among our students from a very young age. That is the reason why we provide the opportunity for students from grade VIII to participate in the National Cadet Corps (NCC) programme. Through NCC, our students not only develop their leadership skills but also gain access to numerous other benefits such as scholarships, reservations in education, and defence services. NCC provides a unique platform for our students to learn and grow into responsible and patriotic citizens.

SFA CHAMPIONSHIP

The Sports For ALL (SFA) championship is an annual inter-school sports event, akin to the Olympics, where prominent athletes from Hyderabad schools compete across 25 sports disciplines. This competition involves 180 schools vying for the esteemed title of the **"No. 1 School for Sports in Hyderabad"**. Notably, Vignan School stands out as the sole institution to have clinched the championship consecutively for FOUR times, showcasing its exceptional prowess and commitment to sports excellence.

At Vignan, we prioritize holistic education, valuing learning on the playground as much as in the classroom. This philosophy is backed by our team of 26 certified coaches specializing in various sports and games, ensuring a well-rounded sporting experience for our students.

TEDx

TEDxVignansBoTreeSchool embodies TED's mission of sharing transformative ideas across various fields. The inaugural event in February 2020 focused on offering fresh perspectives on everyday topics. The 2022 edition aimed to question mainstream notions, urging audiences to challenge conventional beliefs. Notably, the third edition in August 2023 centered around *"Sustainable Success,"* aiming to provoke curiosity and broaden perspectives. It's a proud achievement for Vignan Schools Hyderabad to be the only school in Hyderabad to host TEDx events three times.

Examinations

1. CBT conducted every month.
2. Question paper will be designed by subject experts.
3. CBSE pattern is followed in from Grade I to XII.
4. Every examination is conducted under the supervision of external observers.
5. Exams are conducted under CCTV surveillance.
6. Answer scripts of students from std. I to X will be exchanged among branch teachers.

Morning Assembly

1. Morning assembly and home period on every alternate day.
2. Every child gets an opportunity to address from the stage.
3. Jogging, Yoga, Slokas and Meditation are a must.
4. Guest lecturers and parents invited to assembly to address students.
5. Home period is best utilised for enhancing reading skills, communication skills, team building games, events planning, etc.

Parental Relations

1. Yearly 5 formal and 2 informal parent meetings are conducted.
2. Parents are permitted to visit during lunch time to talk to teachers.
3. Phone numbers of each class in-charge, the principal, and transport in -charge are given to parents for communication after school hours.
4. Term-wise feedback is taken from the parents through a questionnaire for improving our school on their valuable suggestions.
5. Parents are warmly invited to every event and celebration at our school.

Sports

1. Fifteen varieties of games and cultural activities offered by different coaches.
2. Seven varieties of sports are offered by physical instructors.
3. Every child must choose one activity and sport in a year.
4. Students are encouraged to participate in all competitions from inter-school to International level.
5. One percent of students are International players, 5% are National players, and 10% are State players.

Co-Curricular Activities

1. Moral values and G.K. Classes.
2. Computer teaching with 1:1 machine ratio.
3. Art and Craft period (I to V).
4. Hand writing improvement classes (I to V).

Students Awards

As students inherit different skills and talents, we at Vignan schools recognize and appreciate such students every month by giving students award certificates such as- Best Artist Award, Budding Scientist, Cheer Master, Excellent Effort Award, Full Attendance Award, Humble Bee, Math Whiz, Student of The Year, Super Speller, Super Stamina Award, Technology Whiz.
